OULCAID Otman

Master's Student in Software Quality

Email : ooulcaid.1337@gmail.com **Phone :** +212 6 29 50 83 95

Education

Master in Software Quality 2024 - 2025

FSDM - Sidi Mohammed ben Abdellah Univeristy - Fes

Computer Science Engineering 2023 - 2025

1337 - 42 Network - khouribgua

Bachelor's in Mathematical science and Computer Science 2021 - 2024

FSDM - Sidi Mohammed ben Abdellah Univeristy - Fes

Technical Skills

Programming Language

C C++ Java javascript

Jakarta Enterprise Edition (JEE)

3-tier Architecture MVC2 pattern

Spring / spring boot

Web Developement

HTML CSS Node.js Fastify

DevOps and Environement

Git Maven Jenkins JUnit Shell Scripting

Linux Docker docker compose GNU Make

Nginx Administration

XML Technology

XML Standard XSD (XML Shema) DTD XSLT

XQuery

Languages

Arabic : Native

English : B2

French : B2

Experience

Public Sector Sub Officer 2015 - 2020

C.I.F Transportation and Logistics - Casablanca

selected projects

Disease Diagnostic System FSDM

HTML CSS Javascript Python Docker

Design and development of a web application to predict diseases based on user symptoms.

Class Diagram Generator Application FSDM

Java swing

Development of a Swing application to generate class diagrams from provided Java projects.

Zoo Management Application FSDM

Javascript C++ Docker Docker-compose Nginx

XML xQuery GNU Make

Development of a comprehensive web application for zoo inventory and animal management.

Web Server Implementation 1337

C++ Linux GNU Make

Development of a single-threaded web server to serve static and dynamic content for multiple requests simultaneously.

Inception 1337

Docker Docker-compose GNU Make Nginx

Mariadb Redis Linux HTML CSS

Designed and deployed a Docker-based infrastructure with custom-built Debian images, using Docker Compose and GNU Make for automated build and setup.
